### Good practices

- In line with the university's slogan Challenge and Elegance, the learning environment is being improved by transforming it into a place of flowers, greenery and flowing water. This project is worthy of evaluation.
- To financially support students during the COVID-19 pandemic, the university provided assistance with food and everyday items. This continued after face-to-face classes fully resumed by providing half-priced meals at the school cafeteria. The university continues striving to prepare a financial base for students. These initiatives are worthy of evaluation.

### Recommendations for improvement

- Both the Private Schools Act and the articles of endowment stipulate that the auditing of the entire business of the university's incorporated entity is part of the duties of the auditor, but an audit of education and learning is not being conducted. Accordingly, there is a need for improvements.
